

◆ ROBERT KIME ◆

DROMBEG MIRROR

M4051

Named for the small axial stone circle near Ardagh, Ireland, where Robert had a house overlooking the water, these mirrors take their inspiration from the Irish oval mirrors that grew in popularity in the late 18th Century.

Made in England, the frames are individually crafted, assembled, and finished by hand. Each mirror features a moulded edge with alternating bands of lacquer and gilt, decorated with gold leaf and glass gems.

Height: 70 cm - 27.5 in , **Width:** 54 cm - 21 in , **Depth:** 6 cm - 2 in
